WANDO ARBORETUM
S. KOREA 2015/2016

Wando Arboretum

The Wando Arboretum is green all year round being one of the best and the largest arboretums in the world. There are 19 buildings and approximately 4,041 types of plants and animals in 2030ha. Wando Arboretum is the largest breeding site of sub-tropical plants and trees in the country. It is home to approximately 769 types of sub-tropical plants, including the evergreen oak, camellia trees, and cacti.

Size

2033ha(outdoor area: 2,032ha, Greenhouses: 3,196m²)

Geographical & Climate data(2015)

geographical position : 34° 21' N, 126° 40' E

elevation : 74 – 644 m

Annual average temperature	14.5°C
Highest annual temperature	32.0°C
Lowest annual temperature	-5.3°C
annual rainfall	1591.6mm
Average of air moisture	81.9%

Location Map

Index Seminum 2015/2016

Amaryllidaceae

1. *Leucojum aestivum* 은방울수선

Aquifoliaceae

2. *Ilex crenata* 팡팡나무
3. *Ilex rotunda* 먼나무

Caprifoliaceae

4. *Viburnum dilatatum* 가막살나무
5. *Viburnum erosum* 털꿩나무
6. *Viburnum odoratissimum* var. *awabuki* 아왜나무
7. *Viburnum opulus* var. *calvescens* 백당나무

Cephalotaxaceae

8. *Cephalotaxus koreana* 개비자나무

Cornaceae

9. *Cornus kousa* 산딸나무

Daphniphyllaceae

10. *Daphniphyllum macropodum* 굴거리나무

Euphorbiaceae

11. *Mallotus japonicus* 예덕나무

Fagaceae

- | | |
|-------------------------------|-------|
| 12. <i>Quercus acuta</i> | 붉가시나무 |
| 13. <i>Quercus acutissima</i> | 상수리나무 |

Flacourtiaceae

- | | |
|-----------------------------|-----|
| 14. <i>Idesia polycarpa</i> | 이나무 |
|-----------------------------|-----|

Illiciaceae

- | | |
|------------------------------|------|
| 15. <i>Illicium anisatum</i> | 붓순나무 |
|------------------------------|------|

Lauraceae

- | | |
|----------------------------------|------|
| 16. <i>Cinnamomum camphora</i> | 녹나무 |
| 17. <i>Cinnamomum yabunikkei</i> | 생달나무 |
| 18. <i>Neolitsea aciculata</i> | 새덕이 |

Liliaceae

- | | |
|---------------------------------|-------|
| 19. <i>Disporum uniflorum</i> | 윤판나물 |
| 20. <i>Disporum viridescens</i> | 큰애기나리 |

Moraceae

- | | |
|----------------------------------|-------|
| 21. <i>Cudrania tricuspidata</i> | 꾸지뽕나무 |
|----------------------------------|-------|

Oleaceae

- | | |
|-----------------------------------|------|
| 22. <i>Ligustrum japonicum</i> | 광나무 |
| 23. <i>Ligustrum obtusifolium</i> | 취퐁나무 |

Ranunculaceae

- | | |
|--|-------|
| 24. <i>Thalictrum rochebrunianum</i> var. <i>grandisepalum</i> | 금꿩의다리 |
|--|-------|

Rosaceae

25. *Crataegus pinnatifida* 산사나무

Rutaceae

26. *Citrus junos* 유자나무

27. *Zanthoxylum ailanthoides* 머귀나무

Styracaceae

28. *Styrax japonicus* 때죽나무

Taxaceae

29. *Taxus cuspidata* 주목

30. *Torreya nucifera* 비자나무

Theaceae

31. *Cleyera japonica* 비쭈기나무

**Agreement on the supply of living plant material¹⁾
for non-commercial purposes
leaving the International Plant Exchange Network**

Against the background of the provisions and decisions of the Convention on Biological Diversity of 1992 (CBD) and in particular those on access to genetic resources and benefit-sharing, the garden is dedicated to promoting the conservation, sustainable use, and research of biological diversity. The garden therefore expects its partners in acquiring, maintaining, and transferring plant material to always act in accordance with the CBD and the Convention on the International Trade in Endangered Species (CITES).

The responsibility for legal handling of the plant material passes on to the recipient upon receipt of the material. The requested plant material will be supplied to the recipient only on the following conditions:

1. Based on this agreement, the plant material is supplied only for non-commercial use such as scientific study and educational purposes as well as environmental protection. Should the recipient at a later date intend a commercial use or a transfer for commercial use, the country of origin's prior informed consent (PIC) must be obtained in writing before the material is used or transferred. The recipient is responsible for ensuring an equitable sharing of benefits.
2. On receiving the plant material, the recipient endeavours to document the received plant material, its origin (country of origin, first receiving garden, "donor" of the plant material, year of collection) as well as the acquisition and transfer conditions in a comprehensible manner.
3. In the event that scientific publications are produced based on the supplied plant material, the recipient is obliged to indicate the origin of the material (the supplying garden and if known the country of origin) and to send these publications to the garden and to the country of origin without request.
4. On request, the garden will forward relevant information on the transfer of the plant material to the body charged with implementing the CBD²⁾.
5. The recipient may transfer the received plant material to third parties only under these terms and conditions and must document the transfer in a suitable manner

I accept the above conditions.

Recipient's name and address, stamp

1) According to the CBD "genetic resources" means genetic material of actual or potential value. This definition covers both living and not living material. The Code of Conduct and the IPEN covers only the exchange of living plant material (living plants or parts of plants, diaspores) thus falling in the definition of genetic resources.

2) ideally, the national focal point in the garden's home country
